Key developer of the Southwest College of Naturopathic Medicine (SCNM) Counseling Program offering psychological and counseling services to the students registered in the naturopathic medical program. As an advanced practicum student, I worked closely with the Dean of Students and Supervising Psychologist to develop and implement policy for counseling services. I provided individual counseling and psychoeducational evaluation services for SCNM students. Responsibilities and autonomy increased as I progressed to a pre-doctoral intern, postdoctoral resident, postdoc, and psychologist respectively. Provide consultation, referral, and follow-up to supervising physicians, faculty, and staff. Also provide open workshops on various mental health issues to the SCNM community and continue to develop the counseling/psychology training program for graduate students attending various academic programs in the valley. Supervise psychology/counseling trainees.

9/02 to 11/03 **Clinical Staff Member**
